10-th Spring School on Acoustics and Applications

Sopot, Poland, May 12–15, 2008

Following nearly 30-year tradition of Springs Schools, it is our great pleasure to invite you to participate in the 10-th School on Acousto–Optics and Applications, which will be held in Sopot, Poland, from 12-th of May till 15-th of May, 2008.

The 10-th School on Acousto–Optics and Applications focuses on all physical aspects of light and sound interaction. The School provides an insight into recent developments of both pure and applied acousto-optics. In particular, the scientific topics of the School include:

- theoretical and experimental studies of light diffraction by ultrasonic waves,
- acousto–optic devices and their applications in light modulation and deflection, signal processing, ultrasonic imaging and tomography,
- acousto–optic materials,
- photoacoustic spectroscopy,
- photothermics.

We look forward to seeing you soon and encourage your colleagues to attend. For more information visit our web-site at <http://univ.gda.pl/~school/>

Registration starts: June 1, 2007

Deadline for abstract submission: January 31, 2008

Bogumił B.J. Linde
President of the Organizing Committee
